

New Concept - Effetto travertino

1. SPECIFICATIONS AND FIELDS OF EMPLOYMENT.

Extraordinary decorative effect obtained by creative symbiosis of two products: *New Concept-Effetto travertino* and *Arthe Cera Top*

Raw materials for a large natural result: lime and beeswax. The success of New Concept - Effetto travertino is noble in its appearance and in its total versatility and universality of use. In fact, a place of style perfectly defined New Concept - Effetto travertino can not be given, because of its sublime and special effect can be used to enrich public and private sites, old-style, classic, neoclassical, modern, ethnic, rustic, etc. .. Perfectly breathable, unassailable from fungicide and bacteria, with excellent wash ability.

2. COMPOSITION

long seasoning lime , a limestone filler granularly controlled, non-toxic additives.

3. METHOD OF APPLICATION

Surface preparation

On a perfectly smooth surface, apply with a roller or brush one coat of *Primer RV*, which has an excellent fixing capacity especially for difficult surfaces (like plasterboard, cement cell, ceramics, etc..).

APPLICATION

Let dry least 24 hours and apply first coat of New Concept - Effetto travertino with stainless steel trowel on a regular basis without leaving smears or relief; total drying before applying the second coat of New Concept - Effetto

travertino and immediately crisp the surface with a sponge roller; immediately after " draw " smooth sides of New Concept - Effetto travertino with a stainless steel trowel; wait from 5 to 10 minutes and when it starts drying, scratch all on a horizontal surface with a spatula" Japanese ". After completing the wall, crushing the surface with steel trowel perfectly clean in a horizontal direction, so that only the polishing smooth area is polished. After 24 hours the spread Arthe Cera Top colored , with a sponge or trowel of sponge trowel polish and immediately.
